

Analysis of Sports Premium Funding and Expenditure 2019-20

St John's has used the funding to make additional and sustainable improvements to the quality of physical education, physical activity and sports that we provide for our students.

We have invested in the IMoves three year package and Sport Explorers, an online activity resource for Early Years children, to support and enhance the teaching and learning of dance throughout the school.

The children in KS2 benefitted from extra sport sessions at lunchtimes delivered and supervised by a specialist sports coach. The KS2 children then used the skills taught to support children in KS1 and Early Years. These sessions and additional equipment bought encourages active play during lunchtimes and break times.

To promote girls football, a proportion of the funding paid for football coaching sessions for girls aged between 7 and 9. Football clubs for mixed boys and girls also regularly take place.

To raise attainment in swimming, addition members of staff attended the swimming sessions so groups could be smaller and therefore the children would receive targeted teaching.

	Income	Expenditure
Sport funding	19590.00	
IMoves dance package		1113.00
Lunchtime sports club (RS 30wks)		565.00
Replacing faulty apparatus		1515.73
Sport explorers online		250.00
Before school girls football club 12wks £30 each session		360.00
Overspend from the previous year		4371.95
Swimming		452.53
Creative play area		11000.00
Total	19590.00	19628.21
Overspend of		38.21
